COMMUNICATIONS

Asymptomatic Employees

Houston Methodist is able to offer testing to asymptomatic employees. If you would like to be tested, please contact your supervisor. We have also developed an employee handbook for COVID-19, including return-to-work considerations.

Safe Return to Work

Houston Methodist is offering three Safe to Return packages to assist employers. These offerings will

Stay Safe by Staying at Home This July 4th

Good barbecue, great better company — the Fourth of July. But, this year, COVID-19 cases continue to rise in Houston, this year has been gearing up to celebrate. Please keep these tips in mind:

[Learn More](#)

Stay at Home This July 4th Weekend

Dear JSW Steel employees,

Coronavirus cases are rising in the Greater Houston area once again. This trend began just after Memorial Day weekend. COVID-19 is primarily a respiratory illness, and many symptoms overlap with other common respiratory illnesses. It's important to know the symptoms separating COVID-19 from a cold, the flu or even just allergies.

If you're experiencing COVID-19 symptoms, you can speak to a board-certified provider through [Houston Methodist Virtual Urgent Care](#). Our providers are available 24/7 to help you determine if testing is needed, as well as advise you on where you should go. Virtual Urgent Care appointments are \$20.
