National Institutes of Health (NIH) Solicitations

Here is a funding opportunity with the NATIONAL INSTITUTE OF ALLERGY & INFECTIOUS DISEASES (NIAID) 2022 DMID Omnibus Broad Agency Announcement (BAA).

The National Institute of Allergy & Infectious Diseases (NIAID) has just published a Broad Agency Announcement (BAA). This BAA contains four distinct Research Areas:

1. Development of Vaccine Candidates for Biodefense, Antimicrobial Resistant Infections and Emerging Infectious Diseases

Submission Deadline: APRIL 18

2. Development of Therapeutic Candidates for Biodefense, Antimicrobial Resistant Infections and Emerging Infectious Diseases

Submission Deadline: APRIL 18

3. Antiviral Program for Pandemics: Development of Antivirals for Specific RNA Viral Families of Pandemic Potential

Submission Deadline: MARCH 18

4. Development of In Vitro Diagnostics for Biodefense, Antimicrobial Resistant Infections, and Emerging Infectious Diseases

Submission Deadline: APRIL 18

You may submit proposals for multiple Research Areas.

In Research Areas 1, 2, and 4: NIAID estimates up to \$12.8 million for the award of 5-6 cost-reimbursement type contracts across these three Research Areas in FY 23.

In Research Area 3: NIAID estimates up to \$34 million for the award of 2 or more cost-reimbursement type contracts in FY 23.
