

**Amanda Barnhart joined BBCetc as a Principal Consultant in August, 2020.**

She brings an impressive resume, including an Executive MBA in Integrative Management from Michigan State and deep experience as a grant writer, editor, negotiator and project manager. She has been the Director of Applications and Regulatory Affairs Nuclear Engineer, part of the senior R&D leadership team for Niowave, Inc. manufacturing life-saving radioisotopes for cancer therapy. Amanda also managed the Department of Energy national laboratory funding, and has submitted proposals to the DOE, Department of Defense, Department of Health and Human Service and the National Science Foundation. Her grant writing skills have helped secure 12 Phase I contracts and 14 Phase II contracts through the SBIR/STTR program. Amanda has also managed post-award administration and grant compliance and established FDA licensing compliance for facilities and drug master files. She holds a BS in Engineering in Materials Science and Engineering from the University of Michigan.
