

SBIR/STTR Topic ID: Topic Title

Small Business:

Small Business Tech POC:

Proposal Title:

Gov't Principal Investigator:

Current NDA/PIA in Place

	AERO
	MFC
	RMS
	SPACE

TECH OVERVIEW – CURRENT STATE

- Describe current state of your concept
- Compared to State of the Art
- Summarize prior work that will be leveraged

SBIR/STTR OBJECTIVES

- Summarize project objectives, including both technical and business (as appropriate)
- Include images of existing/planned prototypes as appropriate (can include additional chart)

INNOVATION

- Provide insight into potential discriminators and novelty of approach

TECHNICAL APPROACH – EXECUTIVE SUMMARY

- Summarize Phase I and/or Phase II plan (may provide additional slides as needed)
- Summarize planned deliverables, demos, prototyping, TRL/MRL goals
- Please include customer feedback/guidance on topic
- Please include if spoken with gov't TPOC and if work has been done with them in the past
- Commercialization and Transition opportunities (aware of customer effort or program suggested for transition, or LM program for transition?)
- Desired/expected Role of Lockheed Martin (Phase I and II), if applicable
- Include reference links to website or outside data, as applicable
