

Construction Notice – Water Main Replacement on S. Ontare Rd.

The City is currently replacing aging water main infrastructure, including piping, valves, and hydrants, in order to maintain the quality and reliability of water service on South Ontare Road, San Pedro Lane, San Pablo Lane, and Santa Maria Lane. This area will be open to traffic and you will be able to access your driveway, but you may experience temporary delays and parking restrictions. Expect construction noise Mon.-Fri., 8:00 a.m.-5:00 p.m. Your water service may be interrupted while you are being connected to the water main.

You will receive a detailed notice at your residence one day in advance of a proposed service interruption. As a result of the ongoing supply chain crisis, work in your area may be subject to start/stop delay due to inconsistent shipping times on various materials. We appreciate your patience and understanding during this inconvenience and long construction duration.
