Santa Ana residents, Celebrate the City's 150th Anniversary with a free tree!

The CIRCLE 3.0 team, in partnership with the City of Santa Ana, will be giving away 150 FREE trees to residents of your city to help celebrate the City's 150th year anniversary! **These trees must be placed on private property, trees will not be planted in city parkways.** These trees are 1 to 5 gallon and will be planted by West Coast Arborists, Inc. in November.

City of Santa Ana residents simply visit the website below, enter resident information and select a tree species. Tree species available include: Australian Willow, Brisbane Box, Turkish Pine, Pink Trumpet and Coast Live Oak. Sign up soon to receive preferred species! **Register as soon as possible, limited quantity available.**

The selected tree will be planted on the resident's property. After the checkout process is completed, please attend the City's 150th Anniversary celebration on October 27th from 3pm-7pm at Centennial Park to pick up your tree TREE FLAG. Flags will be used by residents to place on their property to identify the tree planting location. If you have any questions, please call David Pineda at (714) 404-8877.

If you are interested in a private property tree, please visit http://energysavingtrees.arborday.org or text TREE to 38470!
