For over 30 years, CHW has been transforming communities through positive change, concept to construction. CHW is an experienced professional consulting firm built around a team of land planners, urban designers, landscape architects, land surveyors, civil engineers, and construction engineering inspectors and administrators.

**Passion. Empowers. Progress.** *At CHW, it is our desire to work with passionate, progressive talent to ensure the highest quality of services to our clients. As a full-service firm, we utilize a team approach that involves all disciplines. We present both a creative and technical approach to the delivery of our projects. But there is more to working with CHW: optimism, energy, and confidence. Whether you are an experienced professional or a recent graduate, you will have the chance to collaborate with the best and brightest in the industry, while working on a portfolio of innovative and challenging projects, ones to be proud of. With a sharp mind, you can go far. But if your heart is in the right place too, you are unstoppable. That is how we define passion. It is advocating for our clients, our community, and each other that spurs growth and allows everyone to move forward.*

**CHW Embraces Diversity.** We believe in creating an inclusive environment and it's an essential part of our culture. We're committed to diversity, equality and inclusion and we expect all employees to treat each other equally, honestly and with respect.
