= Effective Tools in Medical Practice OSHA Compliance

Montgomery County Medical Society has partnered with OSHA Medical Courses, LLC to offer you assistance in your practice's OSHA Hazardous Communications & Blood Borne Pathogens regulations compliance initiatives.

## COMPLIANCE TOOLS NOW AVAILABLE!

### Employee Training

#### Individual Employee Training on Hazardous Communications & Blood Borne Pathogen Regulations Without Leaving the Office

Every employee, including physicians in your practice, must receive training on OSHA regulations. New employees must be trained before they begin work. Digital presentations are available on Hazardous Communications & Blood Borne Pathogens regulations. Each employee can be trained via audio/video presentation using a PC/laptop in your practice. Training includes self-administered quiz and personalized Certificate of Completion for each employee trained from Montgomery County Medical Society. Documents are delivered via file share program to email indicated on application.

**Member Fees:** \$29 - 1 employee/physician; \$20 each 2-14 employees/physicians; \$15 each 15+ employees/physicians

**Nonmember Fees:** \$119 - 1 employee/physician; \$105 each 2-14 employees/physicians; \$90 each 15+ employees/physicians

### Compliance Plans

#### Compliance Plan Templates on Hazard Communications & Blood Borne Pathogen Regulations to Make Compliance Easier

Each location of each health care setting must have a Hazard Communications Plan and a Blood Borne Pathogens Regulations Compliance Plan. You can customize these plans to reflect your practice's own unique situation. Both include training indexes, resources, and other helpful materials. Save yourself time and expense preparing your practice's plans!

**Member Fees:** \$75 per plan **Nonmember Fees:** \$150 per plan with training purchase; \$225 per plan without training.

(Note: Join MCMS and save almost 70% on training and the compliance plan!)

### In-person Training

#### Annual OSHA Update

Each year, MCMS offers an in-person OSHA update featuring an expert in OSHA medical practice compliance. Understanding recent changes in OSHA regulations or information coming from OSHA inspections is helpful to you and your medical practice. Watch for announcements about this important training. There is a fee to attend and it is held at MCMS Headquarters in Rockville, MD. It is open to MCMS members and staff only.

Use the order form to purchase training programs and/or the compliance plans for your practice!
