Complete the U.S. Census Via Online or Phone

The U.S. Census has halted in-person operations. There will be no in-person Census takers until further notice.

At this time, we are encouraging residents to complete the Census through online or telephone methods if possible. The census can be taken online at www.2020census.gov or by calling 844-330-2020.

We do not in any way want to discourage participation, but advise and strongly encourage the community to participate in the Census in the safest way possible.

A graphic with a teal background. At the top, there are various white icons related to the internet and social media, such as a hand pointing, a speech bubble with 'SUBSCRIBE', a 'SEARCH' button, a 'SUBSCRIBE' button, a 'SHARE' button, a bird, a stack of books, a bell, and a 'SMS' bubble. Below these icons, the text is arranged in a descending staircase pattern. The text reads: 'I pledge — TO COMPLETE — the census to shape the future of my community'. At the bottom, in a white box, the text 'Responses to the 2020 Census will shape how hundreds of billions of dollars in federal funding are distributed to local communities annually.' is displayed. At the very bottom, the hashtag '#shapeyourfuture' is centered in a teal box.
