Year of Establishment	1996
No. of Employees	80
Offer No.	122111
Summary of offer	<i>Export/Joint Ventures/Services:</i> <b>Breeding of SPF laboratory animals, contract research services, supply of diet and bedding for laboratory animals and associated services</b>

### Description of Offer

Our company was founded in 1993. The company consists of two divisions: Research Models Services (RMS) and Contract Research Services (CRS) and employs 80 professional and support staff in Jerusalem and Rehovot, providing services to biotech, pharma, medical device companies and research institutes throughout Israel and abroad.

A) The Research Models Services (RMS) division provides:

- A broad range of laboratory animal models (mice, rats and rabbits) under strict Specific Pathogen Free (SPF) conditions.
- Supply of maintenance and custom-made diets.
- Consulting on the requirements for Specialized Beddings.
- Related products

The RMS division has ISO accreditation, as well as handling of animals according to National & International Ethical directives:

- ISRAEL – Law of Animal Protection and Animal Experimentation, January 11, 1994
- The US-NRC Guide for the care and Use of Laboratory Animals – 8th edition
- International SOP's

We have many years of experience supplying animal models both in Israel and outside of Israel including Europe, Singapore, Japan and other countries worldwide.

B) The Contract Research Services division provides:  
 The broadest range of contract research services, research models and related services to the pharmaceutical and biotechnology industries, academia and other life science organizations in Israel. As the largest organization in Israel providing these services, the company is committed to helping researchers realize the full potential of their critical R&D projects as we fulfil our mission to work together to build a healthier and safer world.

The Contract Research Division (CRS) provides:

Testing of Pharmaceutical materials and Medical devices

Tests among them:

- In-Vitro assays
- Toxicology
- TK/PK
- Animal models (Rodents, Rabbits and Large animals)
- Biocompatibility testing
- Histopathology
- Health Monitoring
- Imaging services
- Bio-products & Batch release studies

The CRS has OECD-GLP, GMP and ISO accreditation.

Our company carries out on average – 210 projects or studies/year, 50% GLP-compliant & 50% non-GLP where 70-80% are In-vivo and 30-20% are In-vitro.

Potential Partners	Research institutions and Universities, Pharma and Biotech start up companies.
Target Countries	United Arab Emirates

Company Name	<a href="#">BMT Diagnostics</a> (58925)
Contact Person	<b>Initial contact to be made via the Federation of Israeli Chambers of Commerce:</b> International Relations Division Email: <a href="mailto:chamber@chamber.org.il">chamber@chamber.org.il</a>
Website	<a href="http://www.bmtdiagnostics.com">www.bmtdiagnostics.com</a>
Year of Establishment	2008
No. of Employees	20
Offer No.	122263

Summary of offer	<b><i>Rapid Diagnostics Test- based on PATENT- NO STEP</i></b>
<b><u>Description of Offer</u></b>	
<p>The company was founded in 2004 and has been active in developing, manufacturing and marketing rapid diagnostic tests (RDT) in Israel and abroad base on PATENTS-NO STEP (StrepA-Covid 19 Ag (sample from throat)-Influeanza A+B), etc.</p> <p>Focused initially on introducing rapid diagnostic tests to pharmacies and health maintenance organizations (HMO) for self and professional testing, the company has led the adoption of Strep A RDT as a firstline screening tool by physicians and patients. This has created a new market opportunity, opening the door to additional tests that bridge the patient-physician chasm.</p> <p>Over the last two decades there has been a significant market shift in extending medical testing from hospitals' laboratories to Point-of-Care (POC) physician office/clinic settings and to private homes (e.g. pregnancy tests and glucose tests). However, most RDT (excluding glucose tests) are still predominantly performed in hospitals and by POC professionals, since standard tests and kits have yet to overcome the regulatory challenges associated with developing a user-friendly product that will widely appeal to health-conscious consumers.</p> <p>The company has pioneered a first of its kind, simple-to-use, integrated device for Strep A-COVID19 &amp;Influenza A+B testing under its Lab-On-Time Trade Mark. It is in the process of developing additional swab-based tests based on its Lab-On-Time™ platform. It has one international patent application covering its core swab-based integrated sampling and testing device platform.</p> <p>After receiving validation and establishing a credible foothold in the European market, the company will begin to expand into the USA and other territories.</p>	
Potential Partners	Distributors of rapid diagnostics tests.
Target Countries	Worldwide

Company Name	<b><a href="#">Dead Sea Cosmetics</a> (74490)</b>
Contact Person	<b>Initial contact to be made via the Federation of Israeli Chambers of Commerce:</b> International Relations Division Email: <a href="mailto:chamber@chamber.org.il">chamber@chamber.org.il</a>
