

# SANITIZER & DISINFECTANT

## Clean hands often

**Hand sanitizer:** If soap and water are not readily available and hands are not visibly dirty, use a hand sanitizer that contains at least 60% alcohol. However, if hands are visibly dirty, always wash hands with soap and water.

### 19BD ResQue1st Instant Hand Sanitizer (Gel)

Keep you and your loved ones healthy with ResQue1st Hand Sanitizer. Formulated with 70% Ethyl Alcohol v/v giving it the same germ fighting alcohol content as major brands. Formulated to kill 99% of germs in a convenient 8 oz. bottle. Squeeze product in palm of your hand and rub hands together briskly until dry. 12—8 oz. bottles per case.

**\$8.00 Each or \$96.00/Case**

### 1988 64oz Lucas Hand Sanitizer (Liquid)

Lucas Oil Products has decided to introduce a hand sanitizer in a 64-fluid ounce (2-Quart) refill bottle. Hand sanitizers can be drying to the skin. Our product contains a small amount of glycerin to help reduce that tendency. Topical Solution of 80% Ethyl Alcohol. Water thin formula. Formulated in accordance with FDA Recommendations. Manufactured and packaged in an FDA Registered Facility.

**\$45.00**

## Disinfect

- Recommended use of EPA-registered household disinfectant
- Keep surface wet for 10 min then wipe away. Safe and effective to let air dry.
