Veronica Caceres-Jones started her Mary Kay consulting dream last year during the pandemic. She is a young minority entrepreneur selling Mary Kay products while going to college. Veronica is working towards her associate degree from College of Southern Maryland and is planning to transfer to a four-year college once this is accomplished. Her goal is to achieve a bachelor's degree in interior design and minor in business.

Veronica's goal is to put a smile on each of her client's faces while meeting their various needs. She can provide services such as pampering parties in person and through zoom meetings.

Veronica's lifetime goal is to make sure she does everything above and beyond what her customers expect. She also wants to be sure every moment is a memorable event and live life to its fullest through serving clients in Mary Kay and in a few years interior design.
