

Drawdown Solutions: Getting into Action (5-session workshop)

**Mission Peak Unitarian Universalist Congregation,
room 7/8 of Ockerman building**

First session: Sat Aug 3rd 2019: 930-noon

Fifth (last) session: Sat Sept 14th 2019: 930-noon

Jeff Goby moderator

I would like to invite you to a 5-session workshop introducing a set of practices to address global warming, and facilitating your implementation of these practices in your community. I am giving this free workshop for purely educational purposes as a volunteer of the non-profit Pachamama Alliance based in San Francisco.

The practices are described in the 2017 book "Drawdown: The Most Comprehensive Plan Ever Proposed to Reverse Global Warming" which reports the results of 5 years of rigorous scientific research on the 100 most impactful existing solutions for addressing global warming. A team of 200 expert contributors from 22 countries led by author Paul Hawken identified and studied the solutions. **The results reveal astounding news: it is possible not just to slow global warming, but to start its reversal as early as 2045!** Reversal begins when concentrations of climate warming gases in the atmosphere begin a downward trajectory called "drawdown".

This 5-session workshop is a follow-up to the Intro workshop I gave to several groups recently, but completion of the Intro is not a prerequisite! The 5-sessions will allow you to:

1. Explore solutions from Project Drawdown that interest you
2. Develop a plan to implement one or more solutions by yourself or with others
3. Develop skills to communicate effectively about reversing global warming
4. Be part of a global community changing the conversation about global warming

All sessions will occur at the Mission Peak Unitarian Universalist Congregation (2950 Washington Blvd., Fremont), in rooms 7/8 or 3/4 of the Ockerman building:

The workshop's schedule and room numbers are:

| Session # | Length, hrs. | Time | Room |
|-----------|--------------|---------------------|--------------|
| 1 | 2.5 | Sat 8/3, 930-noon | Ockerman 7/8 |
| 2 | 2.5 | Sat 8/10, 930-noon | Ockerman 7/8 |
| 3 | 2.5 | Sat 8/17, 930-noon | Ockerman 7/8 |
| 4 | 2.5 | Thurs 8/22, 630-9pm | Ockerman 3/4 |
| 5 | 2.5 | Sat 9/14, 930-noon | Ockerman 7/8 |

Snacks will be served. I hope you can join! Please RSVP as soon as possible by mailing me, Jeff Goby, at jgoby@hotmail.com.
