

100 SOLUTIONS TO REVERSE GLOBAL WARMING BY 2050

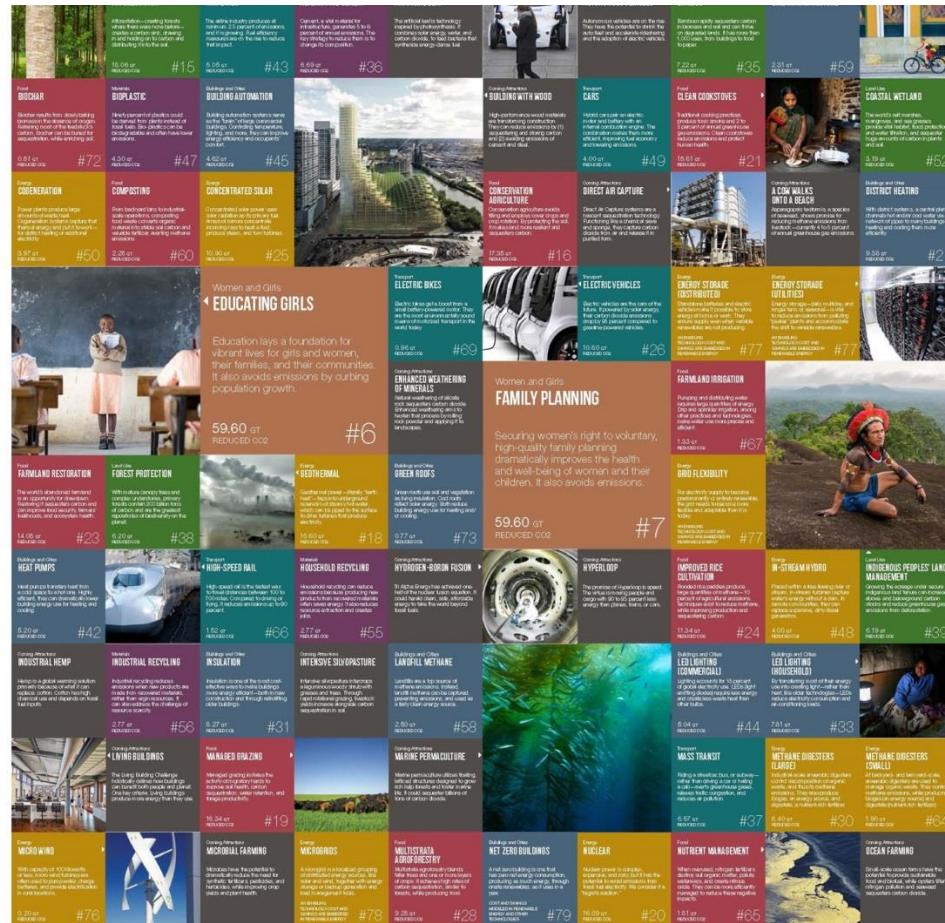

RANKED BY IMPACT

drawdown.org

DRAWDOWN IS THAT POINT IN TIME WHEN THE CONCENTRATION OF GREENHOUSE GASES IN THE ATMOSPHERE BEGINS TO DECLINE ON A YEAR-TO-YEAR BASIS.

Project Drawdown is the most comprehensive plan ever proposed to reverse global warming. Our organization did not create the plan—we built the plan because it already exists. We assembled a qualified and diverse group of researchers from around the world to identify and model the 100 most substantive, existing solutions to address climate change. What we discovered is a plan that can reverse global warming. This year, we are proud to share the results of our work that shows that humanity has the means at hand. Our work is to support the implementation of these solutions as quickly as possible. We chose the name Drawdown because if we do not name the goal, we are unlikely to achieve it.

EACH SOLUTION REDUCES GREENHOUSE GASES BY AVOIDING EMISSIONS AND/OR BY SEQUESTERING CARBON DIOXIDE ALREADY IN THE ATMOSPHERE.

REVERSING GLOBAL WARMING: INTRODUCTION TO DRAWDOWN

Newark Library Community Meeting Room

11 May 2019, 10:30am - 12:30pm

Please RSVP at <https://connect.pachamama.org/node/2043>

Years ago the author, environmentalist, and entrepreneur Paul Hawken began leading a group of 200 researchers and other experts from 22 countries to identify and model the 100 most substantive already existing solutions to global warming. After 5 years of rigorous scientific research, the results reveal astounding news: it is possible not just to slow global warming, but to reverse it by 2050. The results were published in the groundbreaking book *Drawdown: The Most Comprehensive Plan Ever Proposed to Reverse Global Warming*.

During this workshop created by the Pachamama Alliance, we will introduce the Project Drawdown results, reveal how we have been thinking about global warming and a new perspective we can take, and consider how we want to participate. The workshop will also describe the 5-session follow-on course that is currently being piloted around the country called “Drawdown Solutions: Getting into Action”. I hope you can join us! Snacks will be served.

Please RSVP at <https://connect.pachamama.org/node/2043>
