WHAT ATTENDEES ARE SAYING FROM PREVIOUS YEAR'S PROGRAMS:

"Leadership Institute was one of the best development experiences I've ever completed."

The experience & wisdom gained from this program was more than I could have ever expected. It not only helped shape who I want to be as a leader, but more importantly, it has already impacted my team & department in such a positive way.

"The ChamberWest Leadership Institute has been the most valuable leadership course I've attended in 15 years of corporate experience. There is careful thought to every detail of each meeting to ensure the speakers and tours all focus on developing leaders within the community. It is a fantastic program provided by an amazing chamber."

"Having been part of leadership programs that were very specific to my industry, I found that the ChamberWest Leadership Institute gets you so much more involved in the community outside your area of focus. You are able to learn from others in different organizations and tailor an individual leadership style to yourself. Very beneficial."

"The ChamberWest Leadership Institute program has been an experience that has allowed me to build my external partnerships with a group of professionals. One of the revelations that came to me through the program was that although we all serve the community or customers in different verticals, we are all working collaboratively in the community. The program has given me insights to believe in myself that a title doesn't make me a leader, it's what I do and who I am and how willing I am to be part of the community I serve."
