

FRASER VALLEY
CONSERVANCY

Volunteer Activity:

Plant Sale - Sorting and Labeling

Our fundraisers often need volunteer support to be successful. You can support our programs by helping us with our Native Plant Sale!

We need help organizing plants for our Native Plant Sale fundraiser.

The Work:

- We're looking for eager volunteers to help us receive, sort and label our plant sale plants.
- This role will require driving to an outdoor rural location on Bradner Road in Abbotsford (no public transportation is available).
- Learn about a number of our native plant species and how to identify them.

Why It's Helpful:

- Our Native Plant Sales are very popular fundraisers. We need to prepare and organize all the plants so they are ready for a busy pick-up day. Your volunteer work will help us ensure that our Native Plant Sale runs smoothly!

What To Expect:

- Be prepared to spend the day moving and labelling plants. Training on identification will be provided.
- There will be lots of bending and lifting 20-50 lbs.
- Work with a fun team to sort and label hundreds of plants by species.
- Must be able to read and write in English to ensure that all plants are correctly labeled.
- Wear weather-appropriate clothing and comfortable footwear.
- Please, bring your own snacks and a refillable water bottle (fresh drinking water is available).
