

Citizens' Association of Palm Beach (CAPB)

Mission:

The Citizens' Association of Palm Beach (CAPB) advocates for the South End community by engaging residents, representing their interests with Town officials, and fostering education, environmental stewardship, and civic involvement to preserve Palm Beach's unique character, quality of life, and natural resources.

About Us:

- Established in 1976 as a nonprofit 501(c)(3), CAPB serves as the collective voice for South End condominium and co-operative associations from Sloan's Curve to the southern border of Palm Beach.
- We champion local advocacy through regular participation in Town Council meetings, boards, and committees—strengthening partnerships that ensure resident perspectives are heard and acted upon.
- We inform and connect residents through our *News & Views* publication, mobile app (*Palm Beach Exclusive*), and digital platforms, delivering transparent updates on issues that matter most.
- We enrich civic life through educational seminars and programs addressing redevelopment, beach health, traffic, water quality, legislative updates, and hurricane preparedness.
- We invest in our community's future by co-funding scholarships for children of Town employees and sponsoring the annual Town Employee of the Year Award.
- We advance sustainability and environmental responsibility through partnerships that promote beach cleaning, dune protection, and coastal resilience.

Vision:

To strengthen community engagement, build enduring partnerships, and preserve the Palm Beach way of life for generations to come.
