Finding the perfect candidate can be a challenge. Fortunately, skills can be taught. Our On-the-Job Training (OJT) Program helps offset the cost of training.

-  Reduce the costs associated with new hires
-  Offsets the cost of up to six months of job training in qualified occupations
-  Receive a monthly training reimbursement equivalent to **50% or more** of the hourly wage of your new hire

So now you are wondering...

Who selects my new OJT employee?

You do.

OJT employees are the same as all of your other employees with one exception... they come to you with a cost reimbursement benefit.

How does it work?

The contract process is simple. You provide us with a job description and we'll help you write a customized training plan. Your new employee can be on the job within a matter of days.

OJT gives new employees an opportunity to earn while they learn and it gives you a chance to recover some of the costs associated with training new employees.
