

How do the streets and sidewalks around your home and work impact you and your neighborhood?

Join us for a research study using photography to tell *your* story.

### Participants will be asked to:

- Take photos of your neighborhood using a digital camera issued through the study
- Attend 2 group sessions where you will learn more about this research approach and discuss your photos

### Participants will receive:

- \$35 giftcard or ClinCard. The ClinCard can be used to withdraw cash.
- Prints of your photos
- The opportunity to share your photos and stories with the LiveWell Springfield Coalition in their work to make change in the community

**Do you live or work near the North End, Liberty Heights, Six Corners, Old Hill, or the Forest Park neighborhood?**

If so, you may be eligible to participate.

**If interested, please contact the study team at 413-794-2897.**
