

# **Please share this opportunity with your members.**

## **Solicitation:**

The Texas A&M University System (A&M System) is soliciting proposals from firms (also referred to as “Respondent” or “Vendor”) for geospatial data management, geospatial programming & development, geospatial analysis & reporting and cartography services (Geographic Information System, subsequently referred to as “GIS Services”) to support potential needs of the A&M System Energy Resource Office (SERO) to manage surface and mineral real property assets across the state of Texas and several other states.

The intent of this Request for Proposal (“RFP”) is to allow all interested / prospective firms to provide a sufficient amount of information that will enable the A&M System to select one or more firms for the requested GIS Services to be included in a pool as further defined in Section 3. Inclusion in the pool is not a guarantee of utilization of any awarded Respondent.

By submitting responses, each Respondent certifies that it understands this RFP and has full knowledge of the scope and nature of the opportunity described herein. Each Respondent also certifies that it understands that all costs relating to preparing and responding to this RFP will be the sole responsibility of the Respondent.

Respondent is to independently investigate and verify, at its own discretion, all information acquired from the A&M System or from any other source which is relied on by Respondent in the preparation of its proposal.

Proposals shall be in accordance with the terms, conditions, and requirements set forth in this RFP.
