

Hello:

My name is Reginald Cleveland, Director of Supplier Diversity Programs for the University of Texas at Dallas. The university has several upcoming construction projects that are scheduled to be solicited, through a Request for Proposal, within the next six – eight months. We encourage your members/clients to consider responding to these projects.

The attachment will include the estimated project budget, release date and scope of work.

To receive notification, access and submit a formal solicitation(s), we recommend registering on [Bonfire](#), the university's supplier database.

Let us know if you would be interested in our HUB team or university staff to conduct a presentation regarding these upcoming projects.

Thank you and look forward to working with your respective organization.

Best Regards,

Reginald E. Cleveland
