

**Solicitation:**

The Texas A&M University System (A&M System) is soliciting proposals for the selection of one or more firms to provide title searching and abstracting services, title curative, and mineral exploration and production historical research (the “Services”) across the state of Texas on an as needed basis.

The intent of this Request for Proposal (“RFP”) is to allow all interested firms (also referred to as “Respondent” or “Vendor”) the opportunity to provide a sufficient amount of information that will enable the A&M System to select one or more firms for inclusion in a pool who will be engaged on an as-needed basis to provide the requested Services as further defined in Section 3. Inclusion in the pool of firms does not guarantee engagement in the future.

By submitting responses, each Respondent certifies that it understands this RFP and has full knowledge of the scope and nature of the opportunity described herein. Each Respondent also certifies that it understands that all costs relating to preparing and responding to this RFP will be the sole responsibility of the Respondent.

Respondent is to independently investigate and verify, at its own discretion, all information acquired from the A&M System or from any other source which is relied on by Respondent in the preparation of its proposal. Proposals shall be in accordance with the terms, conditions, and requirements set forth in this RFP
