The Texas A&M University System Office of Facilities Planning & Construction (FP&C), on behalf of the Board of Regents of The Texas A&M University System (Owner) and Texas A&M AgriLife Research, is accepting proposals for the selection process to enter into a contract with a Construction Manager at Risk (CMAR) firm to provide pre-construction services such as constructability guidance, cost estimates, and construction schedules; provide a Guaranteed Maximum Price (GMP); and perform complete construction services consistent with the CMAR construction delivery process as utilized by The Texas A&M University System for the Animal Reproductive Biotechnology Center project (#06-3397) located on the RELLIS Campus in Bryan.

The new Animal Reproductive Biotechnology Center will be approximately 7,500 assignable square feet (asf) which translates to approximately 12,600 gross square feet (GSF). In addition to the built facility, the Center will include approximately 11,500 square feet (SF) of exterior covered space. The new Animal Reproductive Biotechnology Center will further the Department of Animal Science's pursuit of innovation and collaboration through academic and industry-partnered research. Focusing on the latest techniques and hands-on instruction, the new Center will support the Department's vision to become a touchstone for the future of animal reproductive science.

**\*\* The RFP package/documents must be accessed and responded to within e-Builder.** The following link provides access to the RFP package/documents:

<https://tinyurl.com/2tacsjcd>

Follow the instructions on the link to get registered within e Builder. **All addendums if any will be posted within this e Builder site.**
