The Texas A&M University System (“A&M System”) is seeking proposals from qualified companies who can provide various technology solutions (“Solutions”) that are built with modern technologies, efficient, effective, expandable, and allow for flexibility to support wireless communications and connectivity needs of students, faculty, staff, researchers, administrators, visitors, emergency responders, and IoT and Smart Campus devices. The company, hereafter referred to as “Provider” or “Respondent”, shall provide all materials, components, tools and labor necessary for the Solutions required as specified within Section 3 - Scope of Work.

It is the intent of the A&M System to establish a master services agreement (“Agreement”) with one or more Respondents to meet the needs of the A&M System and its member universities and agencies (referred to as “Member” or “Members”). The resultant Agreement(s) will be between the selected Respondent(s) and the A&M System. Respondents may propose on all areas defined within the scope (Section 3.2), for specific areas only, and/or for the Kyle Field DAS Services listed within Section 3.13. Members may utilize at its discretion any Provider awarded an Agreement as a result of this Request For Proposal (RFP).

A pre-proposal conference is scheduled for Monday, February 20, 2023 at 1:00 PM CST. Attendance is NOT mandatory at this conference, however it is highly encouraged that interested parties attend. There will also be a virtual option provided for those who cannot attend in person. A site visit is planned to take place immediately following the conference for those that attended in person. Potential sites to visit include RELLIS campus, Hensel Park Telecom Building, and Kyle Field.

The following link provides access to the RFP package/documents - *It is the responsibility of all vendors/responders to check this ESBD posting for any updates or addenda related to this Request for Proposal.*
