

Greetings,

The Texas A&M University System ("A&M System") Office of Information Technology ("IT") is seeking proposals of the implementation of online proctored testing systems ("solution") to ensure we have the best available tools for our faculty and students to improve their teaching, learning, and testing processes. In addition, A&M System IT wishes to ensure the solution(s) are robust enough to support any Member in the A&M System, assist with the change management process of consolidating systems, enable the faculty at a single institution to meet all of their teaching, learning, and testing goals, and accomplish all of this with a sustainable economic process. It is the intent of A&M System to establish a master services agreement ("Agreement") with one or more firms (referred to as "Respondent" or "Vendor") to meet the needs of its Members per the requirements listed within the RFP.

It is the intent of A&M System to establish a master services agreement ("Agreement") with one or more firms (referred to as "Respondent" or "Vendor") to meet the needs of its Members per the requirements listed in the RFP.
