

Solicitation for the TBI - Del Rio Sector DCP-002

Prime Contractors Name:

Southwest Valley Constructors, Co.

Bid Title:

TBI - Del Rio Sector DCP-002 Project: Dust Control

Bids Due to Southwest Valley Constructors, Co.:

December 09, 2022 at 5:00pm CDT

Project Description:

SWVC has been conditionally selected as the successful proponent to deliver TFC the Texas Border Infrastructure Del Rio Sector Design Build Project. The TBI Del Rio Sector 2 is a design-build Project in the Val Verde County consisting of up to 6.7 miles of new 30'-0" Primary Bollard Fence and 8.4 miles of adjacent patrol road between the Amistad Reservoir and terminating at Cienegas Creek outside of Del Rio Texas. However the initial scope in negotiations only includes 2.6 miles split into 5 segments. The final completed scope is expected to be up to 6.7 miles when more segments are added and more pricing may be needed for those segments in the future.

SWVC is now actively seeking pricing from firms who are interested in the project.

Subcontractors, especially those certified as Texas HUB Subcontractors, are welcomed and encouraged to submit. See attached "HUB Subcontracting Opportunity Notification Form".

All applicable project documents will be provided upon request. Please contact Clay.Parry@kiewit.com to confirm your interest and for access to the documents by responding to this email.
