The project Base Bid consists of the reconstruction of an earthen dam, bentonite slurry cut-off wall, principal service spillway, roller compacted concrete (RCC) spillway, aggregate underdrain system, other dam appurtenances, reconstruction of Park Road 1A and 1B intersection, parking area, installation of preventative erosion control measures, and establishment of native vegetation. Alternate Bid No.1 consists of purchasing aerator equipment that will be installed by TPWD. Option No. 1 includes the roadway repair of Park Road 1A and 1C from the proposed parking area to the intersection of Harmon Road and Park Road 1C. This road repair will consist of primarily overlay with areas identified by TPWD to complete full depth repair.

Deadline to Submit: 7/24/2020
