## **Agent Inbox**

### **Any Agent, Any Listing, Anywhere**

Real Estate messaging integrated into any MLS product. Agent Inbox brings everything together in one simple place. Messages are always secure, within context, and contain all listing data needed.

---

### **Reach any agent, instantly**

Connect with agents across our MLS and inside your brokerage. You now know everyone in your market, can search for anyone, see your history together, and seamlessly communicate.

---

### **Works like supercharged text messages**

Agent Inbox's intuitive messaging interface looks like a text message, so anyone in our market can get up and running right away - no learning curve needed. The platform's unique system facilitates easy and rapid adoption, providing more transparency and less email.

---

### **Spend time closing deals, not entering data**

Eliminate data entry and manual processes to focus on what matters the most. Get set up on Agent Inbox just by connecting your MLS data feed.

---

### **Every Showing Is A Conversation**

Start a conversation by scheduling with anyone, when the time is right. Features like instant response eliminate the back and forth of setting up meetings, automated routing helps you plan your day with ease, and schedules keep you on time so you never drop the ball. Once an agent accepts a time, a calendar invite will be auto-generated and added to your schedule!
