

Sports Engine

(Some Helpful Hints for Individuals)

Prior to Tryouts

Individuals should create a SportsEngine Account – No charge 😊

- From the homepage of the region website: www.azregionvolleyball.org scroll to very bottom of the page.
- See SportsEngine – Login or Create Account
 - If a junior member - a parent or guardian needs to create the “household account.” – No Charge 😊
 - Use the parent or guardian email address throughout the entire process. Be sure to use this same email address when player information is shared with a club otherwise complete chaos will ensue 😞
 - Once the “household account” is created players should be added – keeping the parent email address

Purchase Membership(s)

- A Parent or Guardian must purchase the membership on behalf of a Junior player because of the waivers that require signatures.
- Adult Members be sure to open confirmation email after purchasing membership because it will contain additional requirements for you to complete before becoming eligible.
- Purchase memberships from the AZ Region website – www.azregionvolleyball.org and click on the membership banner. Select the type of membership needed – an adult associated with a junior club and an official fall under the adult with safety requirements type. If a player is 18 or will turn 18 during the season, they should purchase the Junior 18 membership.

After Tryouts

- The club will send you an email after tryouts. Watch for the Club Assignment Email. Reply immediately so clubs can get their rosters entered into the system and paperwork turned into the Region Office for verification. Clubs will not recognize the player until the invitation has been accepted.
