► Quote from Principal Aaron Nelson:

"The graduating class of 2021 has been distinguished

by their fortitude and resolve, something forced on them unexpectedly and borne out of necessity. These students have been denied the traditions and experiences celebrated by seniors for decades, and yet they have found their own ways of making this year special. Whether it be creating their own substitute for face-to-face connections during distance learning or ensuring special events can happen with modification, these seniors have learned to overcome adversity by adapting to their new reality."
