Trust Recipient Spotlight: FCC Consulting Services

FCC Consulting Services was founded in 2007 and in 2018 developed a turnkey solution that fundamentally changes the way in which Construction Managers and General Contractors monitor their projects.

FCC Consulting Services provides customers instant access to a job site with unsurpassed image monitoring and assistance from their client experience team. FCC Consulting Services' client list includes fortune 500 companies, startups and community organizations. Certified as a minority business enterprise (MBE) and disadvantaged business enterprise (DBE) in 20 states, the company is also certified by the Port Authority of NY & NJ and the National Minority Supplier Diversity Council, and earned its U.S. Small Business Administration (SBA) 8(a) certification.

"We're a one-stop-shop for our clients temporary field office needs," said Chris Carothers, president and CEO. "Our technology allows our clients to stay connected to their job site with high-resolution technology providing viewers with wide angle views of the project. Our cameras range from 6 to 24 megapixels (MP) giving our clients the power to review every detail of the project."
