Recognizing that the state has a unique opportunity to become a hub for nuclear innovation, PSEG applauded Gov. Mikie Sherrill for taking steps in that direction during an event held Wednesday morning at PSEG’s Salem and Hope Creek Nuclear Generating Station.

PSEG, in a release, applauded Sherrill’s decisive action to accelerate new nuclear development in the state, saying today’s announcement is latest example of how the governor is taking action to show that New Jersey is open for business.

“By removing outdated barriers and creating a clear path for modern nuclear technologies, the governor is ensuring that New Jersey can meet growing energy needs with reliable, 24/7, carbon-free power that supports economic growth for decades to come,” the company said. “PSEG shares the governor’s recognition of the benefits and opportunities that new nuclear generation can bring to New Jersey.”

Addressing energy costs — and generation — have been a hallmark of her vision for the state since she was candidate Sherrill. And one PSEG and the state supports. PSEG said the governor’s vision creates space for innovation and opens the door to new investment that will benefit communities across the state.

NYNJ Host Committee unveils 'Jersey Fan Hub' for World Cup 2026 at Sports Illustrated Stadium in Harrison

The road to the FIFA World Cup 2026 will officially run through Harrison. The New York New Jersey Host Committee on Wednesday announced the launch of the NYNJ World Cup 26 Jersey Fan Hub, a massive, multi-sensory fan destination designed to serve as the tournament’s heartbeat in the Garden State.

Located at Sports Illustrated Stadium, the Fan Hub will provide a centralized, high-energy environment for residents and international visitors to experience the “global game” on a scale never before seen in New Jersey. The Jersey Fan Hub is designed to make fans feel like they are part of the action. Key features of the venue include:

- **The Pitch View:** Live matches will be broadcast on a massive 60-foot screen situated directly on the stadium floor, allowing fans to watch from the pitch itself.
- **Hype House:** A newly opened rallying point featuring 20 large-screen TVs, a 360-degree bar and a built-in stage for musical performances and celebrity appearances.
- **Host City Activations:** The hub will showcase interactive brand experiences from major New Jersey-based supporters, including Bristol Myers Squibb, Hackensack Meridian Health, Horizon Blue Cross Blue Shield of New Jersey and PSEG.

New Jersey imposes new travel insurance rules on producers, retailers, and insurers

Carleen Bongat - Insurance Business.com April 8, 2026

[CLICK HERE TO CONTINUE](#)

New Jersey's new Travel Insurance Act takes effect April 18, reshaping how producers, retailers, and insurers sell travel coverage statewide.

Acting Commissioner Susan Ochs signed Bulletin No. 26-02 on April 1, 2026, offering the industry official guidance on the Travel Insurance Act, codified at N.J.S.A. 17:46E-1 to -9. The law applies to any travel insurance policy covering a New Jersey resident that is sold, solicited, negotiated, or offered in the state, as well as policies and certificates delivered or issued for delivery there.

The new framework touches virtually every corner of the travel insurance distribution chain. If you sell it, administer it, underwrite it, or offer it at the point of sale, the Act has something to say to you.

Starting with licensing, the Act requires anyone who sells, solicits, or negotiates travel insurance to hold a producer license with authority in property or casualty, or limited lines travel insurance. Travel administrators – those who underwrite, collect premiums, or adjust claims – must be licensed as producers with authority in property and casualty, or operate as managing general agents. The Department of Banking and Insurance has signaled it will promulgate further regulations, but compliance is expected from day one regardless.
