Construction of the Medical Facility is moving along. Ground breaking was in May 2024. While our timeline extends over the next year and a half, we are committed to bringing you along on this journey every step of the way. There is still a lot of work before completion. We're thrilled about our future growth and the lives that will be changed. Our long-term goal is to be able to share those spay/neuter services at a low cost with our wonderful community.
