In Lent...

we take time to look around our homes, our communities and world to realize that we can be the ones to make a difference. In your Sunday School Group talk about some of the ways that our world is hurting and how God might be

calling us to help heal God's creation.

When you take time to listen and notice

the world around you, what is something that you see that is

in need of God's love?

Using your imagination, draw a poster to invite all of St. John's to help solve this problem! [Use provided poster template to draft and polish your final submission by March 24.]

The poster art that you create will be part of St. John's first annual "Egg-xhibit" an art show featuring the young artists and activists (YOU!) of St. John's and the issues that are important to our time.
