Your CBD Store® Opens Store in Vernon, CT

Vernon—November 2020—National CBD retailer, Your CBD Store® celebrates opening their Vernon, CT Location. In less than two years, Your CBD Stores® have grown to become the world's largest brick and mortar CBD retailer with over 600 locations and 40 states. Founded with an emphasis on education and community, Your CBD Store® has helped dismiss misconceptions about its hemp derived products.

“Everything we do is focused on improving the lives of our customers, we are a high-quality learning environment where customers can try products and leave knowing what is in their CBD product.” Says store manager, Rebekah Fernandez.

“We are not just another retail chain. We are a community of store owners who truly care and are educating CBD consumers around the nation” states Kevin O’Connor, owner of Vernon’s store location.

Cannabidiol, better known as CBD, may be one of the most broadly therapeutic plant extracts of our time. It comes from the cannabis sativa plant, but our CBD is not from the USDA defined marijuana plant, rather it comes from “Industrial Hemp”. This distinction is what makes the extract legal as well as differences in medical applications due to chemical uniqueness with high CBD quantities. Along with its lengthy list of therapeutic properties, it comes with the backing of the medical community, the World Health Organization, the nursing community, and the veterinary community.

Since its creation Your CBD Store®, has received thousands of 5-star reviews across Google and Facebook customers. With a focus on quality Your CBD Store®, has helped drive legislation in Florida and other states towards transparency and testing. Third Party lab reports as well as lot and batch numbers can be found on every product.

Your CBD Store®, offers a variety of CBD infused products that don’t require a prescription or medical card to buy. All stores only sell products manufactured by SunMed, which uses a special CO₂ extraction process to eliminate the need for chemical solvents to produce a high-quality, full-spectrum CBD. The CBD is then processed again to remove all traces of THC for the company’s zero-THC products. Your CBD Store of Vernon opens November 20th 2020 and will be located on 425 Talcottville Rd., Vernon, CT.

ABOUT Your CBD Store®

Your CBD Store®, is the nation's fastest growing retail channel for CBD users with over 600 locations. By 2021, it is expected there will be over 1,000 stores across the country.

Rachael Quinn, Your CBD Store® founder, shares her desire to inspire others through the use of natural, hemp-derived products.

Each Your CBD Store® offers a comfortable and inviting environment where guests can learn about CBD, try samples and feel empowered to make a confident choice on the best cannabinoid formulation option for them. Their organic growth and dedication to bettering the community through transparent product information from high-quality premium product lines backed by third party laboratory testing make SunMed™ CBD products a refreshing new standard in the CBD space.
