

Elizabeth (Betty) Robinson

I purchased my home after discovering the natural beauty of Bald Head and recognizing a community of individuals who truly treasure their lifestyle. I am enamored with the spirit of history and empowerment islanders have for preserving the quality of life that they have discovered here. As stated in my candidate biography, *"the most important aspect of Bald Head Island life for me is **COMMUNITY...**"*. The earliest HOA was formed by islanders who wanted a voice in the future development of Bald Head. Likewise, today's property owners should be providing their input on decisions impacting the island and Bald Head Association is the collective voice of our community. Your BHA Board should be partnering with you and with organizations all across the island to develop a strategic approach to our future. Advocating for the interests of homeowners, full-time or part-time, to maintain our special style of island living is at the core of my interest in serving on the BHA Board.
