

# Chris Parrish

I am asking for your vote in the upcoming election of the BHA Association Board. My story with the ARC is exactly the reason for my candidacy. The Guidelines are meant to maintain the beauty and uniqueness of our Island, but all homeowners have the right to expect clear direction in the building and renovation process. ARC decisions need to be founded based on a set of clear rules, not judgements and interpretations that give absolute power to those on the ARC committee. That is my commitment to you--I will work for you, our homeowners, with an approach based on common sense, clarity, consistency, and efficiency in all Board matters.
