TRAINING

Adolescent Cannabis Use:
Making Sense of Changing Trends, Products, Risk Factors, and Prevention Targets

Presented by: Dr. Ty Schepis, Professor, Department of Psychology
Texas State University

1.5 CEUs Available

LEARNING OBJECTIVES

Objective 1

Participants will understand changes in adolescent cannabis use prevalence, frequency, and forms used over the past two decades.

Objective 2

Participants will be able to identify key risk factors for adolescent cannabis use, including more frequent use and cannabis use disorder.

Objective 3

Participants will apply new knowledge on adolescent cannabis use to inform prevention practices.

Date: October 7, 2026

Time: 10–11:30 AM
