CRITICAL RACE THEORY

What is Critical Race Theory and why is it a threat to America's freedom and your future? The answer goes back to Karl Marx, the father of Communism, who believed that workers should overthrow the capitalistic class through revolution to achieve equality.

To the uninformed, this sounds like a great idea: Take from the rich and give to the poor. Except that isn't some Robin Hood idea of equality. Instead, the result will be to place the levers of wealth and power in the hands of a few despotic rulers who would create generations of subservient citizens depending on government assistance/handouts to survive.

Once established, the "masses" or common people would continue to support those who hold their lives and livelihoods in hand.

Too late, citizens discovered how they had been taken in by what seemed like manna from heaven. Too late they discovered that there is no such thing as a free lunch.

Study the plight of people that live under socialism (defined as communism for amateurs) in China, North Korea, Vietnam, Philippines, Laos and, most recently, Venezuela.

Now, one need look no further than the current ruling class in Washington, DC. The Socialist Democrat Party has added Marx to their playbook written by such contemporaries as Bill Ayers.

Leader of the Weather Underground group described as a terrorist organization, Ayers inspired the Clintons, the Obamas and the Deep State puppeteers of PINO (President in Name Only) Joe Biden.

For decades the socialist movement has been spreading cancerous tentacles throughout the government, business, education and even into the Christian churches.

Like the Russian Bear, it moved patiently and slowly ahead, gaslighting those who had no idea they were being taken over.

Then disaster struck their progressive plans in the person of President Donald J. Trump. He was a Godsend who not only said "No!"

but “Hell No!!” The wheels on the leftist train not only squealed to a stop, they began to fall off. The plans for the permanent takeover and conversion of America to a third-world member of the New World Order (NWO) were quickly reversed by the man in the Oval Office.

Enter impeachment fraud to remove Trump and that failed. Blame for climate change failed. Blame for COVID-19 failed. Blame for illegal aliens crashing the border failed.

The only thing left was to defeat Trump for reelection by any method possible...including fraud. And that, for now, succeeded.

Still, there was one more arrow in the Left’s quiver: Critical Race Theory. Promoted by Biden as a program to promote equality, it is just the opposite.

Christopher Rufo explains: “Critical race theory is an academic discipline, formulated in the 1990s, built on the intellectual framework of identity-based Marxism.

Relegated for many years to universities and obscure academic journals, over the past decade it has increasingly become the default ideology in our public institutions. It has been injected into government agencies, public school systems, teacher training programs, and corporate human resources departments in the form of diversity training programs, human-resources modules, public policy frameworks, and school curricula.”

Then Rufo shows how subtly this ideology is blended into a person’s thinking.

“There are a series of euphemisms deployed by its supporters to describe critical race theory, including “equity,” “social justice,” “diversity and inclusion,” and “culturally responsive teaching.”

Critical race theorists, masters of language construction, realized that “neo-Marxism” would be a hard sell. Equity, on the other hand, sounds non-threatening and is easily confused with the American principle of equality.”

However, In contrast to equality, equity as defined and promoted by critical race theorists is little more than reformulated Marxism.

For example, UCLA Law Professor and Critical Race Theorist, Cheryl Harris, has proposed suspending private property rights, seizing land and wealth and redistributing them along racial lines.

As a patriot who has worked hard for what you have, is there something that you are willing to give up?

Another race guru, Ibram X. Kendi, who directs the Center for Antiracist Research at Boston University proposes creation of a federal Department of Antiracism.

Independent of elected branches of government (and unaccountable to them), it would have the power to nullify, veto, or abolish any law at any level of government and curtail the speech of political leaders and others who are deemed insufficiently “anti-racist.”

One practical result of such a department would be the overthrow of capitalism, since according to Kendi, “In order to truly be antiracist, you also have to be truly anti-capitalist.” In other words, identity is the means and Marxism is the end.

George Orwell’s 1984 Big Brother cult of Thought Control Police with its brutal purging of non-conformists would become a fictional novel transformed into reality.

As a citizen endowed by the Creator with freedom of speech, religion, self-protection and choice of lifestyle, would you surrender those rights for meager handouts?

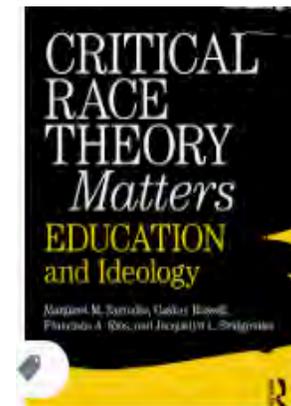

Make no mistake, critical race theory prescribes a revolutionary program that would overturn the principles of the Declaration and destroy the remaining structure of the Constitution.

There is a way to fight this anti-American attack read on.

IF YOU LOVE AMERICA — FIGHT BACK!

By Heartland Editorial Staff

Sadly, few are aware of how dangerous the escalating spread of Critical Race Theory has become. If you have school age children or grandchildren the following information may

come as a shock to you as an American:

In Cupertino, California, an elementary school forced first-graders to deconstruct their racial and sexual identities, and rank themselves according to their “power and privilege.”

In Springfield, Missouri, a middle school forced teachers to locate themselves on an “oppression matrix,” based on the idea that straight, white, English-speaking, Christian males are members of the oppressor class and must atone for their privilege and “covert white supremacy.”

In Philadelphia, an elementary school forced fifth-graders to celebrate “Black communism” and simulate a Black Power rally to free 1960s radical Angela Davis from prison, where she had once been held on charges of murder.

And in Seattle, the school district told white teachers that they are guilty of “spirit murder” against black children and must “bankrupt [their] privilege in acknowledgment of [their] thieved inheritance.”

Critical race theory is becoming the operating ideology of our public institutions, from universities to bureaucracies to k-12 school systems, the theory has permeated the collective intelligence and decision-making process of American government, with no sign of slowing down.

SO HOW DO WE FIGHT IT?

No longer simply an academic matter, critical race theory has become a tool of political power. To borrow a phrase from the Marxist theoretician Antonio Gramsci, it is fast achieving “cultural dominance by *socialists*” in America’s public institutions. More and more, it is driving the vast machinery of the state and society. If we want to succeed in opposing it, we must address it politically at every level.

Critical race theorists must be confronted with and forced to speak to the facts. Do they support public schools separating first-graders into groups of “oppressors” and “oppressed”? Do they support mandatory curricula teaching that “all white people play a part in perpetuating systemic racism”?

Do they support public schools instructing white parents to become “white traitors” and advocate for “white abolition”? Do they want those who work in government to be required to undergo this kind of reeducation? How about managers and workers in corporate

America? How about the men and women in our military? How about every one of us?

There are three parts to a successful strategy to defeat the forces of critical race theory: (1) governmental action, (2) mobilization of the people, and (3) an appeal to principle.

We already see examples of governmental action. Last year, President Trump issued an executive order banning critical race theory-based training programs in the federal government. President Biden rescinded this order on his first day in office, but it provides a model for governors and municipal leaders to follow.

This year, several state legislatures have introduced bills to achieve the same goal: preventing public institutions from conducting programs that stereotype, scapegoat, or demean people on the basis of race. A coalition of attorneys has been assembled to file lawsuits against schools and government agencies that impose critical race theory-based programs on grounds of the First Amendment (which protects citizens from compelled speech), the Fourteenth Amendment (which provides equal protection under the law), and the Civil Rights Act of 1964 (which prohibits public institutions from discriminating on the basis of race).

On the grassroots level, a multiracial and bipartisan coalition is emerging to do battle against critical race theory. Parents are mobilizing against racially divisive curricula in public schools and employees are increasingly speaking out against Orwellian reeducation in the workplace. When they see what is happening, Americans are naturally outraged that critical race theory promotes three ideas—race essentialism, collective guilt, and neo-segregation—which violate basic American principles of equality and justice.

In terms of principles, we need to employ our own moral language rather than allow ourselves to be confined by the categories of critical race theory. We should be talking about and aiming at excellence, a common standard that challenges people of all backgrounds to achieve their potential. On the scale of desirable ends, excellence beats diversity every time.

Similarly, in addition to pointing out the dishonesty of the historical narrative on which critical race theory is predicated, we must promote the true story of America—a story that is honest about injustices in American history, but that places them in the context of our nation’s high ideals and the progress we have made towards realizing them. Genuine American history is rich with stories of achievements and sacrifices that will move the hearts of Americans—in stark contrast to the grim and pessimistic narrative pressed by critical race theorists.

Above all, we must have courage—the fundamental virtue required in our time. Courage to stand and speak the truth. Courage to withstand epithets. Courage to face the mob. Courage to shrug off the scorn of the elites. When enough of us overcome the fear that currently prevents so many from speaking out, the hold of critical race theory will begin to slip. Courage begets courage.

IT'S EASY TO STOP A LONE DISSENTER; IT'S MUCH HARDER TO STOP 10, 20, 100, 1,000, 1,000,000, OR MORE WHO STAND UP TOGETHER FOR THE PRINCIPLES OF AMERICA.

Truth and justice are on our side. If we can muster the courage, we will win.

THEY CAME FOR OUR KIDS AND WE DID NOTHING...

By Karen Schoen

Americans must stop drinking the Kool-Aid. Do you think that just because your governor writes an executive order, people will comply? Do you think that just because you believe in America, Family, and God, everyone else does? Do you think that just because President Reagan took down the wall, that communism would just disappear? Think again, because Communists never sleep. Most sit in their drug-filled rooms with well-funded think tanks dreaming up new words to describe the same old torture designed to steal everything from the masses under the names of fairness and utopia.

Most communists are making life-changing decisions because of diversity, not intelligence. Never forget, you know more than they do. They are one-dimensional people incapable of independent thought or action. I know nothing; I am just doing what I am told as friend reports friend and neighbor fights neighbor. In the meantime, the communist leaders sit back and stir the pot as hatred oozes through every walk of life enforced by their new army of useful idiots. Once they get rid of the police, crime will rise. People will

scream government, do something, and Obama's dream of a federal police force will arrive. They are made up of regular untrained, but diversified people told to do the right thing for the "common good" and are more lethal than any police. Why, because they were trained to hate. Where were they trained? In the school system!

APPLYING KNOWLEDGE IS POWER

On April 30, I spoke at the [Back to the Future conference](#). I found it so interesting that no matter who the speaker was; each had the same theme without prior knowledge or discussion. Knowing something and not acting is just as bad as doing nothing. "All tyranny needs to gain a foothold is for people of good conscience to do nothing," Thomas Jefferson.

Are you part of the do-nothing 80% or the do anything 20%? Going to school board meetings is the easiest place to start. What are they teaching? What methods are they using? If your district is using Houghton Mifflin Harcourt (HMH), your students will be learning how to be an activist who hates everyone and everything and can only read and retain sound bites. They will be closer to addiction and suicide as communism teaches victimhood, hate, and how to be an activist. Look for words like diversity, inclusion, equity, service learning, action civics, multiculturalism, social-emotional learning, etc. These are the new words describing Critical Race Theory (CRT) without saying CRT.

If your district is using the Phonological Awareness method for reading, you lose. Phonological awareness is an individual's awareness of the phonological structure, or sound structure, of words. Why kids can't read is simple. First, remember communists want the populace dumb. Phonological awareness is not phonics. Phonological awareness is breaking

the word down into sounds often without seeing the actual word. Repeating and memorizing words is NOT reading. This is word-specific and forces the child to memorize thousands of words when all they should do is memorize the sounds of 26 letters. If Freedom is not one of the words, when do they learn about freedom?

Phonics teaches the sounds of the letters. Phonics should be taught as the major component of reading, not elimination. Phonics teaches spelling and can be applied to sounding out and reading any word. Phonics makes reading easy and fun. Phonological awareness is a failed program since 1931. Why are we teaching failure to our kids?

As long as Joe Biden is in office, illegal immigration will not stop. But these "new" Americans hate communism. They know its horrors firsthand. If we take back our education system in our states, dump CRT and multiculturalism and give these "new" Americans a good dose of America, they would never vote for a Communist Democrat. We must use their system and change the outcome. Then we win!

States Banning Critical Race Theory must check to see the content of materials used and method of reading.

Texas Senate [Bill 2202](#), currently under review in the House Public Education Committee, seeks to ban the teaching of radical ideology associated with Critical Race Theory in Texas public schools. The bill also mandates a robust academic focus on the founding documents and ideas of America.

Similar legislation passed last week in [Idaho](#), with additional bills under consideration in [West Virginia](#), [Oklahoma](#), Missouri, and [Arkansas](#).

Are you one of the 80% that just complains or one of the 20% that acts?

They came for our kids, and we did nothing. Then we lost our country.

AN OPEN LETTER ON CRITICAL RACE THEORY TO GOVERNOR RON DESANTIS AND COMMISSIONER OF EDUCATION RICHARD CORCORAN

Thank you, Governor DeSantis and Commissioner Corcoran, for your bold and courageous leadership. Your determination to protect Florida's children from harmful ideologies is commendable and inspiring!

Governor, we all breathed a sigh of relief when you announced that the teaching of Critical Race Theory (CRT) in Florida and similar theories are “wacko” and unacceptable in Florida.

You have been very clear that embracing a traditional American education focused on reading, writing, math, and civics is the only acceptable way forward. What a seemingly wonderful thing that Florida students would once again be getting a great education. However, with FL DOE-approved materials now being adopted and purchased in addition to the US DOE order to provide CRT grants directly to Florida School Districts, how wrong we were! We all must remember that Communists NEVER stop.

Governor DeSantis, on behalf of over 110,000 active Florida Citizens Alliance supporters and many of our over 100 partner groups, we are urging you to issue a joint Executive Order immediately that:

1) Stops the adoption of ELA textbooks until the FL DOE can be 100% confident that all the textbooks and teacher editions are completely free of Critical Race Theory and its many tentacles (The solution is original sourced materials and classical literature already in the B.E.S.T. ELA Standards.)

2) Strictly prohibits any school district in Florida from accepting a direct federal grant related to Critical Race Theory or its many tentacles.

Use your Executive power as Florida's Governor and the 10th Amendment to just say NO!

If NOT, Critical Race Theory will be a huge embarrassment to you and all of Florida; and it will be infused into our classrooms for the next 4-6 years!

To be clear on what Critical Race theory is, here are recent quotes from Hillsdale's Imprimis:

“Critical race theory is fast becoming America's new institutional orthodoxy... built on the intellectual framework of identity-based Marxism. There are a series of euphemisms deployed by its supporters to describe critical race theory, including “equity,” “social justice,” “diversity and inclusion,” and “culturally responsive teaching.”

Critical race theorists, masters of language construction, realize that “neo-Marxism” would be a hard sell. Equity, on the other hand, sounds non-threatening and is easily confused with the American principle of equality. It has been injected into government agencies, public school systems, teacher training programs, and corporate human resources departments in the form of diversity training programs, human resources modules, public policy frameworks, and school curricula.” [link to complete Hillsdale assessment]

As we write this letter, Florida School Districts are adopting ELA Textbooks. Florida Citizens Alliance supporters and our extended team are just beginning to assess ELA adoption processes taking place in all Florida counties. What we are finding is unacceptable. It is another effort by the large publishers to pro-

mote their progressive agenda. These ELA materials continue to reflect the principles of Common Core (i.e., Social Emotional Learning, Equity, Social Justice, Diversity, and Inclusion and worse), and these materials will be in our schools for the next 4-6 years! They completely undermine the great work done by the FL DOE to create the B.E.S.T ELA and Math Standards. However, standards without supporting content are worthless.

An honest, academic, traditional American education is the most important gift we can give our children. **A moratorium must be immediately declared to stop all 67 counties from purchasing materials that embrace Critical Race Theory, 1619 Project, and BLM Marxist materials.** We should be embracing original sources and truly classical content. These are public domain and available 10 cents on the dollar for mere printing. In addition, it must be clear that an activist teacher bringing supplemental materials into the classroom that undermine our principle Judeo-Christian and original Constitutional values will NOT be tolerated.

Under a different name with new adjectives and nouns, CRT is concealed, shrouded, veiled, or disguised in the Houghton Mifflin Harcourt (HMH) ELA curriculum. With the use of subtle messages and euphemisms, teachers are guided to teach Social Emotional Learning (SEL), Equity, Diversity, Inclusion, etc. Feelings are more important than facts.

One of the major contributors to the Houghton, Mifflin, Harcourt (HMH) texts is Dr. Tyrone C. Howard. He is an “expert” in CRT from the University of California. Why is Florida approving textbooks from California or these global publishing companies that are still wedded to Common Core?

FLCA has asked our supporters to check in their district to see if these textbooks and programs are part of their curriculum being adopted. The CRT case is building. Much more to come, but school districts are buying now, and once the \$\$ are spent, this cannot be undone.

“Leaders of Florida Citizens Alliance just finished a review of the standards to be adopted in Civics, Holocaust, and Character. As a former teacher and Dean, I can tell you standards are meaningless. The curriculum and text are the only things that matter. What are the students reading? What is the teacher saying? Why are character standards void of mention of family, God, and morality?”

I have spoken with Floridians who are reviewing textbooks in their county. In some districts, the School Board is refusing to provide access to student and teacher editions. I was sent the summer curricula and reading list for Palm Beach County from a teacher, all under a taxpayer grant given to summer camps.

Repeatedly, I have been told from those who have responded so far, all they get from their School Board is, “It’s on the FL DOE approved list.” Yes, it is on the approved list. So, I asked, “How is it possible that these publishers continue to be approved in spite of the Governor’s statement condemning CRT?? Who makes these decisions? Since CRT and related theories are a national progressive agenda and national publishers were complicit in Common Core, it is more than certain that the other approved publishers have similar unacceptable content.”

We will continue to find and expose multiple examples, but the most critical question to ask is, “what can be done NOW to stop this child abuse our education system is forcing on our 2.8 million public school children?”

Governor DeSantis and Commissioner Corcoran, we do not believe that you are aware of the devastating progressive content in these ELA materials that the 67 Counties are adopting.

Governor DeSantis, you are an amazing champion for liberty and an education system based on Judeo-Christian and original Constitutional values. School districts are spending real tax dollars as we speak, and these materials will be in Florida Classrooms for 4-6 years. It is imperative you both stop this immediately! Otherwise, this will be a debacle equal to or greater than the magnitude of the Common Core deception.

We offer this all in the constructive and best interest of our students and parents.

Respectfully,

Keith Flaugh and Pastor Rick Stevens

SATAN IS WIDE AWAKE WHILE AMERICA SLEEPS!

By Chaplain R.T. Byrum

Somewhere north of the known universe, a clock is ticking, and when the hands converge on a pre-set time that no man can know, two

astounding events will occur. For some, it will be the greatest news possible—for others, the beginning of the worst news since the beginning of creation.

The purpose of this column is to give advance coverage of what is about to happen, rather than convince non-believers to accept what can only be known by those who understand [John 3:16-18](#) in the Bible.

For believers, identified in the Bible as the *church*, it will signal the “catching up” or the “rapture” of the faithful to meet with the Son of God in the clouds. First those who died in faith will be resurrected and clothed with an eternal body. Then the living faithful will have their own bodies instantly changed to also become eternally immortal. These will return with Christ to heaven, where all pain, suffering and death is over forever.

For those left behind, it will be a different matter. When millions of believers suddenly are reported missing, there will be confusion, wild theories to explain their absence (perhaps the recent “sightings of UFO’s”), but then there will also be rejoicing by many in government, the media and entertainment. Christians have always been killjoys to those who want to be free to do whatever feels good.

In a short time span, enter the One World Government: universal economy, education, laws, justice...all under the leadership of one all-powerful dictator, the prophesied “lawless one (Antichrist) in accordance with how Satan works.” [2 Thessalonians 2:9](#).

Those remaining under his rule will soon learn the meaning of [Matthew 24:21-22](#),

“For at that time there will be great tribulation, unmatched from the beginning of the world until now, and never to be seen again. If those days had not been cut short, nobody would be saved. But for the sake of the elect, those days will be cut short.”

So, what time is it in relation to the alarm that will sound on that ticking clock? Closer than

most imagine, and here are the signs as written thousands of years ago for our warning (take time to check the prophetic references):

- Israel is declared a nation May 14, 1948 ([Isaiah 66:8](#))
- Jews from around the world return to Israel ([Isaiah 11:11-12](#))
- Israel’s deserts will suddenly spring back to life ([Isaiah 35:1-2](#))
- Israel surrounded by enemy nations who will soon attack her, but will themselves be destroyed. Russia and Turkey just announced meeting with 20 other Arab nations to discuss Israel’s “aggression” toward Palestine ([Zechariah 12:2-9](#))
- Plans, furnishings and implements are now ready for a third temple in Jerusalem, and which will be desecrated by the antichrist ([2 Thessalonians. 2:3-4](#))
- Today’s news is a fulfilling of 2000 year old prophecies, many that could never have happened before our end-time generation ([Matthew 24:3-22](#))

Satan is fully aware that [his power and influence will end](#) at the return of Christ and he is using those who scoff at the faithful in a failing attempt to prevent the rapture. As the clear fulfillment of prophecy dawns on an immoral world, ignorance of the coming wrath of God and His judgment will be of no defense.

The disciple Timothy foretold of the wicked state of man in the last days and warned believers to stay alert ([2 Timothy 3:1-5](#))

Pastor Emeritus [Reinhold Buxbaum](#) a familiar teacher of prophecy, has an awesome presentation with video, photos and scriptural references that give undeniable proof that the

key to what comes next is revealed mainly by events in the Mideast.

Covid-19, masks, vaccines, open borders, Green New Deal, socialism, BLM, Antifa, Critical Race Theory, etc. are diversions to keep our focus away from the evil behind the curtain.

We must fight against everything that opposes God and family and America, but don’t be distracted by the leftist hands hiding the truth from those of us on the right.

TO DEFEND AT ALL COSTS

By Carolanne Jordan

We are not citizens of the United States of Communist China. We are not citizens of the United States of Progressive Socialists. We are citizens of the United States of America. We are a people who believe in a free democracy, an unbiased judicial system, and freedoms of life, liberty, and the pursuit of happiness.

We are not a racist country. We welcome, respect, and celebrate the cultures, traditions, and history of all citizens, regardless of the country of origin, the color of their skin, or religious beliefs. We do not approve of Critical Race Theory, nor do we support Cancel Culture. We are blessed with freedoms that radiate our greatness above all other nations.

We are awake. We are not dictated to, threatened, tricked, nor are we submissive to anyone. We are a country of immense power; power that lies deep within the mind, heart, and soul of every American. We are ready to defend our nation at all costs. Thousands of American Patriots have fought many a war to defend our country, the Constitution, and the

Bill of Rights so that our freedoms may live on for generations to come.

If anyone today thinks that they are going to destroy the United States of America, think again.

You are weak, evil and deliberately deceiving. You destroy everything that is good. You think you are above the law; you are lawless, corrupt, a monster at work. You promise the most vulnerable Americans everything "free" with our money and lying rhetoric only to silence us, while you slowly take away our freedoms. You are in bed with a country that tried to destroy the world with their uncontrolled scientifically man-made virus, only to fill your own bank accounts.

Who are you? You are a government representing only yourselves, the evil trinity: me, myself and I. You are cowards, guilty of crimes, treason, and inciting violence. You do not represent the people of the United States of America. You are a divider, selfish, a thief. You are trying to steal with fear and intimidation what is ours: the right to vote, the right to freely speak, the right to work, the right to educate our children as we see necessary, the right to choose what is best for ourselves and our families, and the right to be an American with gifts of life, independence, and the quest for happiness. *Do not underestimate the power of the American people.*

AN OPEN LETTER FROM RETIRED GENERALS AND ADMIRALS TO CONGRESS

Retired generals and admirals ordinarily do not engage in political actions. But on Monday, more than 120 retired flag officers released an open letter based on their oath to support and defend the U.S. Constitution

against all enemies, foreign and domestic. The signers contend our nation is in deep peril, more so than at any other time since the founding. They argue that the republic is under assault from the forces of socialism and Marxism, which seek to undo America's cherished freedoms. The following letter asks Americans to look carefully at what is happening to the nation and to take swift action, getting involved at local, state, and national levels to elect and hold accountable political representatives who will act to our constitutional republic.

Our Nation is in deep peril. We are in a fight for our survival as a Constitutional Republic like no other time since our founding in 1776. The conflict is between supporters of Socialism and Marxism vs. supporters of Constitutional freedom and liberty.

During the 2020 election, an "Open Letter from Senior Military Leaders" was signed by 317 retired Generals and Admirals and, it said the 2020 election could be the most important election since our country was founded. "*With the Democrat Party welcoming Socialists and Marxists, our historic way of life is at stake.*" Unfortunately, that statement's truth was quickly revealed, beginning with the election process itself. Without fair and honest elections that accurately reflect the "*will of the people*" our Constitutional Republic is lost. Election integrity demands ensuring there is one legal vote cast and counted per citizen.

Legal votes are identified by State Legislature's approved controls using government IDs, verified signatures, etc. Today, many are calling such commonsense controls "*racist*" in an attempt to avoid having fair and honest elections. Using racial terms to suppress proof of eligibility is itself a tyrannical intimidation tactic.

Additionally, the "*Rule of Law*" must be enforced in our election processes to ensure integrity. The FBI and Supreme Court must act swiftly when election irregularities are surfaced and not ignore them as was done in 2020.

Finally, H.R.1 & S.1, (if passed), would destroy election fairness and allow Democrats to forever remain in power violating our Constitution and ending our Representative Republic.

Aside from the election, the Current Administration has launched a full-blown assault on our Constitutional rights in a dictatorial manner, bypassing Congress, with more than 50 Executive Orders quickly signed, many reversing the previous Administration's effective policies and regulations. Moreover, population control actions such as excessive lockdowns, school and business closures, and most alarming, censorship of written and verbal expression are all direct assaults on our fundamental Rights. We must support and hold accountable politicians who will act to counter Socialism, Marxism, and Progressivism, support our Constitutional Republic and insist on fiscally responsible governing while focusing on all Americans, especially the middle class, not special interest or extremist groups which are used to divide us into warring factions. **Additional National Security Issues and Actions Needed:**

- Open borders jeopardize national security by increasing human trafficking, drug cartels, terrorist entry, health/CV19 dangers, and humanitarian crises. Illegals are flooding our Country bringing high economic costs, crime, lowering wages, and illegal voting in some states. We must re-establish border controls and continue building the wall while supporting our dedicated border control personnel. Sovereign nations must have controlled borders.

- China is the greatest external threat to America. Establishing cooperative relations with the Chinese Communist Party emboldens them to continue progress toward world domination, militarily, economically, politically, and technologically. We must impose more sanctions and restrictions to impede their world domination goal and protect America's interests.

- The free flow of information is critical to the security of our Republic, as illustrated by freedom of speech and the press being in the 1st Amendment of our Constitution. Censoring speech and expression, distorting speech, spreading disinformation by government officials, private entities, and the media is a method to suppress the free flow of information, a tyrannical technique used in closed societies. We must counter this on all fronts beginning with removing Section 230 protection from big tech.

- Re-engaging in the flawed Iran Nuclear Deal would result in Iran acquiring nuclear weapons along with the means to deliver them, thereby upsetting Mideast peace initiatives and aiding a terrorist nation whose slogans and goals include "death to America" and "death to Israel". We must resist the new China/Iran agreement and not support the Iran Nuclear Deal. In addition, continue with the

Mideast peace initiatives, the "Abraham Accords," and support for Israel.

- Stopping the Keystone Pipeline eliminates our recently established energy independence and causes us to be energy dependent on nations not friendly to us while eliminating valuable US jobs. We must open the Keystone Pipeline and regain our energy independence for national security and economic reasons.

- Using the U.S. military as political pawns with thousands of troops deployed around the U.S. Capitol Building, patrolling fences guarding against a non-existent threat, along with forcing Politically Correct policies like the divisive critical race theory into the military at the expense of the War Fighting Mission, seriously degrades readiness to fight and win our Nation's wars, creating a major national security issue. We must support our Military and Vets; focus on war-fighting, eliminate the corrosive infusion of Political Correctness into our military which damages morale and war-fighting cohesion.

- The "Rule of Law" is fundamental to our Republic and security. Anarchy as seen in certain cities cannot be tolerated. We must support our law enforcement personnel and insist that DAs, our courts, and DOJ enforce the law equally, fairly, and consistently toward all.

- The mental and physical condition of the

Commander in Chief cannot be ignored. He must be able to quickly make accurate national security decisions involving life and limb anywhere, day or night. Recent Democrat leadership's inquiries about nuclear code procedures send a dangerous national security signal to nuclear-armed adversaries, raising the question about who is in charge.

Under a Democrat Congress and the Current Administration, our Country has taken a hard left turn toward Socialism and a Marxist form of tyrannical government, which must be countered now by electing congressional and presidential candidates who will always act to defend our Constitutional Republic. The survival of our Nation and its cherished freedoms, liberty, and historic values are at stake.

We urge all citizens to get involved now at the local, state, and/or national level to elect political representatives who will act to Save America, our Constitutional Republic, and hold those currently in office accountable. The "will of the people" must be heard and followed.

TEACH THE EVILS OF COMMUNISM AND THE RED WAVE WILL RECEDE

By Christopher Wright, The Daily Skirmish

My mother used to make fun of my grandfather for thinking there was a communist under every rock. Today, they're all out in the open.

Take the self-admitted "trained Marxists" of Black Lives Matter, for example. BLM co-founder Patrisse Cullors - woman of many mansions - loves comparisons between her book and Mao Zedong's "Little Red Book". Power grows out of the barrel of a gun, baby.

Then there's Antifa - a half-anarchist, half-Marxist group whose lineage traces back to Trotsky's idea for a communist street-army which was made flesh in the Antifa of Hitler's Germany. Today, Antifa in the U.S. is capable of sustaining months of rioting in places like Portland.

Critical race theory is sweeping the nation at the moment, with Joe Biden moving to [prioritize](#) education funding for it. Critical race theory is part of critical theory, which was developed by the Frankfurt School, a group of communists who brought Antonio Gramsci's cultural Marxism to the United States.

Critical race theory is, in a word, communist. It is about the 12th iteration of American communists using race in the service of revolution because they know class warfare won't work in America. Communists using race to divide America was described at least as far back as 1958 when Manning Johnson, a black leader who left the communist party, published his *exposé* [Color, Communism, and Common Sense](#). Today's critical race theory, white privilege, systemic racism, and antiracism are more sophisticated iterations of the same theme Johnson described in his book.

Today, communists aren't under every rock. Instead, they walk the halls of Congress. Senator Bernie Sanders and Representative Alexandria Ocasio-Cortez are self-declared socialists.

If you think communism is cute, let's start with the fact that it's killed a hundred million people in a hundred years and have the conversation go from there, shall we? If you didn't know communism has killed a hundred million people, it wouldn't be surprising. Communist atrocities are not being taught in schools, but they should be.

This why I commend the legislator who introduced a [bill](#) in the Florida House to require classroom instruction on communism in public schools on a designated 'Victims of Communism Day'. The mandated instruction would specifically cover the communist mass murderers Mao Zedong, Joseph Stalin, Fidel Castro, and others. Also required would be lessons on how communism has victimized people through grinding poverty, total censorship, forced migration, engineered famines, and institutionalized violence.

Unfortunately, a different version of the bill passed the Florida Senate and the two versions were not reconciled before the legislature adjourned. Both versions passed unanimously, so people should work to pass the legislation next session.

Don't live in Florida? The bill is a good idea for your state, too. There is a 'Victims of Communism Day' bill currently pending in [Texas](#) and the legislature there does not adjourn until the end of the month.

Teach the evils of communism and I have every confidence the current red wave the country is experiencing will recede, as has every red wave before it.

"We sleep soundly in our beds because rough men stand ready in the night to visit violence on those who would do us harm." Winston Churchill

I NEVER CARED!

I believe more and more people are starting to feel this way. Author Unknown

I never cared if you were "gay" or whatever acronym you chose to call yourself, until you started shoving it down my throat.

I never cared what color you were, until you started blaming me for your problems.

I never cared about your political affiliation, until you started to condemn me for mine.

I never cared where you were from in this great Republic, until you began condemning people based on where they were born and the history that makes them who they are.

I have never cared if you were well off or poor, because I've been both . . . until you started calling me names for working hard and bettering myself.

I've never cared if your beliefs are different than mine - until you said my beliefs are wrong.

I've never cared if you don't like guns, until you tried to take my guns away.

Now ... I care! I've given all the tolerance I have to give. This is no longer my problem. It's your problem. You can still fix it. It's not too late. But it needs to be soon.

I'm a very patient person. But I'm out of patience. There are literally Tens of Millions of people just like me that are sick of all your Anti-American crap!

I've always cared about life, and all lives, but now you try to force the notion on me and my other fellow citizens and patriots that certain lives matter more than others. You protest, riot, attack, burn and loot. Your so-called "movement" has become a radical out-of-control bunch of thugs, criminals and anarchists who are destroying our Country.

We have had enough! America is the greatest country on Earth, and if you don't like America then you can leave. We are done caring about your misguided "feelings".

You don't have the right to enjoy American freedoms if you are trying to take that right away from other Americans.
