IS DAD'S WARNING COMING TO PASS...I THINK SO.

Prior to my dad passing away. He shared with me a dream of seeing a set of plastic utensils, a knife, spoon and a fork, buried one - third of the way in ground. He felt one-third of the food supply would be impacted in the future.

Reported today - something has now occurred that no one saw coming. In Florida, thousands of tons of squash and zucchini are rotting on farms. In the mid-west both milk and eggs are being destroyed by the farmer's themselves. The reason: the restaurants that have the contracts are closed and there is no one under contract purchasing their food and milk, as hundreds of thousands of sit-down restaurants across America and the world, are closed. Thus, it appears, there may end up being one-third of the food remaining in the ground unharvested. A knife, fork and spoon represents three meals a day.

Many farmers are saying they will/could go bankrupt and close their large farms without an immediate breakthrough of some type. Many major meat packing plants across the nation are closing, due to their workers getting sick and the fear of spreading the virus through meat. One large company has closed, sending everyone home. 16.5 million people are now out of work, although some have sent people home to get the government help to pay them, although as reported yesterday no small business has yet seen a check.

I have told people it is not the virus that will impact the nation, as most people recover. It is the repercussions of closed stores and high layoffs and unemployment that will impact the most. IF YOU HAVE A JOB and are being paid and can continue to work, you should every day, thank God for this opportunity. If you have a boss or business owner that has allowed you to work at home and continue to be paid, you should get on your knees every morning and thank God and pray for those who are out of a job. I am seeing videos in large cities of hundreds of cars lined up at food banks, with people taking a box who have never needed assistance. Food banks are running out of food, in every city, within one hour. We can no longer "blow this off," or put a spin on it and act like we will get back to normal. We are in the third-trimester birth pangs. Something will follow this from the Matthew 24 list. In Daniel, the Bible talks about the danger of "wearing out the saints of the Most High God." This can easily set in and occur, without prayer.

One more point. With the government saying they will hand out trillions of dollars, the question arises that if this money is coming out of "thin air" and the Central Bank and Federal Reserve is involved, what keeps America from eventually coming into hyperinflation as Germany did, and the money being devalued until, as in Germany, one postage stamp went from 4 German Marks to 4 billion Marks? I don't have an answer to that one.

Some Washington liberals do not want to have the Malaria pill available that is helping so many. Perhaps two underlying reasons are, big Pharm vaccine money worth billions (also the

industry is the number one supporter of politicians), and the left want to demand everyone to get the vaccine and perhaps a medical chip or special bracelet to monitor a person, in the name of health. The left never misses a crisis where they can promote or enforce their agenda. I do believe this crisis could eventually help develop the Beast System (Rev. 13:17-18), of no buying or selling without a special mark, name or number.

Knowing Bible prophecy and what the prophets saw in the future and what I know by the Spirit will also come down the road, is a strong burden to carry. Satan has great wrath knowing his time is short and is unleashing everything he can to stop the churches, silence outspoken ministers, and prevent global outreaches, using whatever he can how he can. Pray for all spiritual leaders. many people are coming back to Christ which is one awesome outcome of this crisis.

I will be out of pocket for a while and in an area where there is little or no cell service. I find it necessary to have to hear from the Lord for me personally, and renew my body mind, and spirit, and not just prayer for the ministry. I have thought about how I started out at age 18 with nothing, with just me and the Lord; no buildings, no outreach, no staff, and a few little churches to preach in. It is still after forty-four years, me and the Lord, and if for some reason because of the "times and seasons" or the Lord changes our direction, I will still have me and the LORD...and with me, a wonderful family and many faithful, praying people. Like Job said during a time when he lost everything, including his income and his health, "Though He slay me yet will I trust Him!" This is a time for everyone to place their trust, not in men, but totally in God. God bless all of you and stay strong in the Lord and in the power of His might!!
