

## Laundry Pod and Cleaning Product Safety

While washing clothes and dishes seems like a very normal and everyday task in our households, keeping in mind the dangers that can come with these tasks is important, especially in homes with young children. Every day, nearly 65 children go to emergency rooms across the country after getting into a cleaning product. Here are some tips to help keep your home safe from these dangers while still recognizing that dirty clothes and dishes are a part of our life that we all need to contend with. But, be sure to keep safety in mind as you seek out the bubbly soap to help in your task of getting things clean!

### Keeping Kids Safe

#### Around Liquid Laundry Packets

Keep liquid laundry packets up, out of children's reach and sight.

Keep packets in their original container and keep the container closed.

If a child gets into them, call the Poison Help line immediately:  
1-800-222-1222.
