

For the past 30+ years, Safe Kids Grand Forks, in collaboration with our many partners, has hosted our annual Kids Don't Float water safety class at the UND Hyslop Pool. **Many folks are wondering. . . . "What happens with that class now that the Hyslop has been torn down?" Fear not. . . . We have alternative plans in place for a location, thanks to Central High School allowing us to use their pool facilities.**

We are excited to announce that this year's classes will take place from April 13 – 16, 2026 at Grand Forks Central's Pool.

As per our routine, all schools and grades that have come in the past will be invited back. While the invites have not gone out yet, here is a list of the past attendees that we hope will join us again for this year's sessions.

We are always in need of LOTS of volunteers so if you can help, please send an email to safekids@altru.org and we will get the sign-up link out as soon as we have it ready. If you are a caregiver that has a student from one of the above schools and want to help for the class session they get signed up for, let us know that too and we can plug you into their time schedule. For other volunteers, we will need both morning and afternoon help on all of the dates listed above. We would love all the help we can get!!
