

Smart Sitter Babysitting Class—Thank you!!

Smart Sitter is our babysitting class designed by Safe Kids Grand Forks to teach 11-15 year old youth about the responsibilities of caring for other children. Attendees also receive an introduction to first aid procedures and CPR. This class is also great for youth coming/staying home alone during periods of the day.

This program would not be possible for our community and region without your family's generous support. We are so proud to promote this class as being sponsored by the Lunn Family in honor and memory of Cynthia Lunn.

Thanks to your generosity, we have had the opportunity to share this information with students in Grand Forks, as well as many other communities in our region. Classes are well received and typically reach full capacity each time they are offered. We appreciate the opportunity to share this valuable information and thank you for being a proud supporter of our work. From the bottom of our hearts, we say a huge THANK YOU!!
