Give the gift of SAFETY this holiday season

AGES 0-5

Consider gifting the next appropriate car seat and remember to check all toys for age appropriateness and potential choking hazards.

AGES 6-12

When gifting items like rollerskates, bikes, and scooters, make sure to include a helmet and consider including additional safety gear.

AGES 13-17

When gifting tech, make sure parental control features are turned on and the recipient understands how to stay safe online.

HOME

Carbon monoxide is colorless, odorless, tasteless, and deadly. Carbon monoxide detectors are a small gift that can have a huge impact.

Toys, decorations, and novelty light-up items may contain button batteries. These items should be kept away from children due to risk for serious injury and death.

SAFE KIDS GRAND FORKS
