

Behind Every Statistic Is A Story.

If you live in North Dakota and experienced the loss of an infant due to hazards present in the sleep environment, we invite you to share your story through a Digital Storytelling Workshop.

We will help you create a short video that can honor your child and protect other families.

You will be working with a digital storytelling agency and have a **supportive environment** to share your story. Participants receive a \$1,000 stipend, a copy of their finished story, and the option to have it shared through ND Safe Sleep program.

For more information, or to participate, please contact jjgrabar@nd.gov with the subject line: Digital Storytelling

Because when stories are told, lives can be changed.
