

Gratitude to the Buckle Up For Life Organization

The use of car seats in motor vehicles for the protection of children is not a new safety strategy. In fact, one industry leader providing assistance with car seat needs is celebrating their 20th anniversary of the program this year. The Buckle Up for Life organization, a program of Toyota and Cincinnati Children's is celebrating their 20th anniversary of conducting this important work and providing support to organizations like ours from all around the country.

Recently, Safe Kids Grand Forks was the recipient of a Gift of Safety grant provided by Buckle Up for Life. (Please see the map above for other grateful grant recipients). Through this grant, we have received fifty car seats for clients in need that cannot afford one. Our

team has a screening process in place to help distribute these seats and provide education to the parents/caregivers to assure they are used correctly. If you are in need of a car seat and cannot afford one, please reach out to our team and see how we may be able to assist.

We would also encourage a visit to the Buckle Up for Life website to check out their great on-line resources on child passenger safety related topics. Visit their site at: [Buckle Up for Life | Child Passenger Safety & Car Seat Safety Check](#).

This milestone of a 20th anniversary and over 100,000 car seats donated during the program's history is remarkable. On behalf of Safe Kids Grand Forks and the clients that we serve, we share our gratitude with the Buckle Up for Life team for placing their trust in our work. We appreciate their support as we seek to keep kids safe at HOME, at SCHOOL, at PLAY and ON the WAY.
