

In partnership with the Sea Tow Foundation, Safe Kids Grand Forks was proud to partner with Golden Lake to set up a life jacket loaner board by the public boat ramp near the Golden Lake Restaurant. This was set up this spring and has been being used throughout the summer.

The lifejackets come in infant through adult sizes and are **FREE** to use by anyone. Simply take the proper size jacket and use it for the day, then return it to this site following use so they are there to keep other people safe while on or in the water.

Thanks to Jake Dickson for helping to get this stand built, the loaner program set up and for the on-going maintenance of the life jackets and to the Sea Tow Foundation for the donation of these life jackets.
