

California Chapter 2

American Academy of Pediatrics

DEDICATED TO THE HEALTH OF ALL CHILDREN®
Incorporated in California

The AAP-CA2 Newsletter Editorial Review Board was established in July 2020 to take the chapter newsletter to a new level! Its goals are to highlight educational content and resources of value to chapter members and to showcase our chapter membership while maintaining consistency of style and form across submissions. Meet the 2022 - 2024 Newsletter Editorial Review Board below.

Nirupama Madduri, M.D. is a pediatrician in a private practice clinic in Arcadia, CA, and also is a consultant for the Department of Developmental Services. She serves on the chapter's Newsletter and the Adverse Childhood Experiences Committees. In her spare time, she tries to strengthen her arm balances in yoga; maintain calm by meditating; and enjoys reading Japanese crime fiction.

Gifty-Maria Jane Ntim, M.D., M.P.H. is a primary care physician at UCLA who is double board certified in Internal Medicine and Pediatrics (MedPeds). She is a Member-At-Large and serves on the chapter's Newsletter Committee. In her spare time, she enjoys gardening, sourdough bread making, and spending time with family.

Christine Thang, M.D. is a general pediatrician at UCLA, where she has been a Bruin since undergrad, medical school, and residency. In addition to chairing the chapter's Newsletter Committee, Dr. Thang is a member of the Early Career Physicians and Adverse Childhood Experiences Committees. Outside of the clinic, Dr. Thang enjoys being a plant parent to her growing houseplant collection.

Peds@CA2 eNews is published the second Sunday of each month. Newsletter submission guidelines can be found [here](#). Article submissions are reviewed on a rolling basis.

Please direct questions and article submissions to the American Academy of Pediatrics - CA Chapter 2 via email to chapter2@aapca2.org or call (818) 422-9877
