

Dear Residents... We want to highlight you in our newsletter!

Since the new academic year has started, we are reaching out to invite trainees to contribute an article to our AAPCA2 monthly newsletter to be published in an upcoming month. The AAPCA2 Newsletter Editorial Board will help to review and edit all submissions prior to publication.

The AAPCA2 Newsletter Residency Corner is dedicated to highlighting resident voices and providing an opportunity to find peer connections across residency programs in the chapter. It is a space for residents to publish articles on their topics of interest. Submissions from all areas are welcome, including sharing ideas to stay socially connected during residency, describing personal hobbies or passions, highlighting resident research or QI projects, describing advocacy efforts, or providing advice and perspective on transitions during residency.

We ask that you please distribute this call for articles to the residents in your program. Please see the general submission formatting requirements on the [website](#). You can also look at examples of past submissions and pass this information along to your residents!

Sincerely,
The AAPCA2 Newsletter Editorial Board
