

# Train for Your Future in Home-Based Primary Care

There are 4 million Americans with limited or no access to primary care due to chronic illness, frailty or functional limitation.<sup>†</sup> And the number is on the rise. Prepare for the future of healthcare and learn to care for these individuals where they need it most — in their home.

The *HCCI Essential Elements of Home-Based Primary Care™* is the first and only national education program that trains physicians, nurse practitioners and management and support staff on the full spectrum of home-based primary care (HBPC), from clinical processes to practice management.

## Two-Day Classroom Workshop

Practical tools, resources and case-based sessions on:

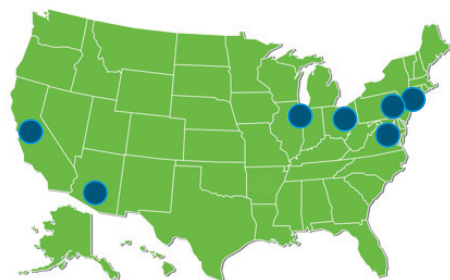

- Patient assessment
- Medication management
- Infection control
- Coding and billing
- Staffing
- Reimbursement models

HCCI also provides networking opportunities with HBPC experts and peers, field training and online learning opportunities.

Continuing Medical Education Credit  
HCCI Essential Elements of Home-Based Primary Care™  
This activity has been approved for AMA PRA Category 1 Credit™.

Offered by HCCI at its network of partner institutions:

- Cleveland Clinic
- Icahn School of Medicine at Mount Sinai
- Northwestern University, Feinberg School of Medicine
- University of Arizona Center on Aging
- MedStar House Call Program
- University of California, San Francisco
- Perelman School of Medicine at the University of Pennsylvania

## Cost for Participation

Two-day workshop rates:

- Physician: \$750
- Advanced Practice Provider: \$525
- Resident/Fellow: \$525
- Practice Manager: \$525
- Allied Health Professional: \$525

Professor in Clinical Translations  
Research and Aging, Division of  
Geriatrics, Department of Medicine,  
University of California, San Francisco

**Bill Zafirau, MD, CAQ**

Medical Director, Cleveland  
Clinic Foundation Center for  
Connected Care

## About the Home Centered Care Institute

The Home Centered Care Institute (HCCI) is a national non-profit organization focused on advancing home-based primary care (HBPC) to ensure that chronically ill, medically complex and homebound patients have access to high-quality care in their home. HCCI works with leading academic medical centers, health systems and industry experts to raise awareness of and advocate for expanding the HBPC model by growing the HBPC workforce through education and training and developing a research-based model for sustainable house call program implementation and growth.
